# The Big Realization

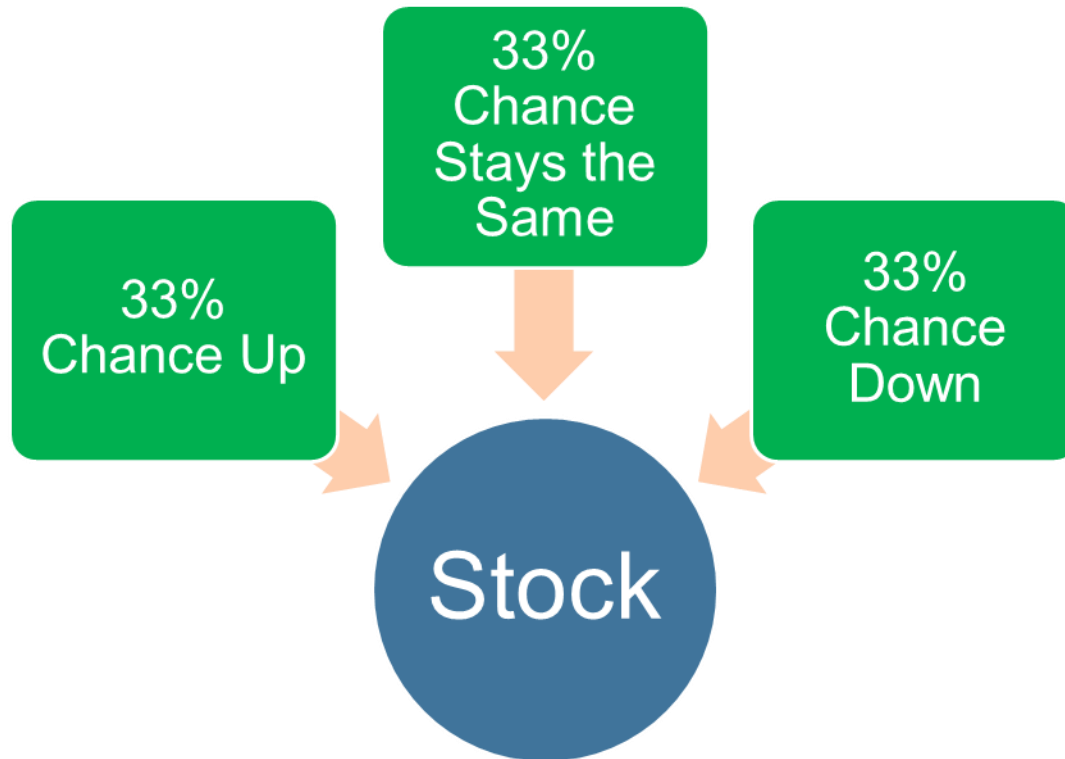

Familiar?

- Tried several programs/gurus out there.
- Haven't had a ton of success.
- Are sick of bouncing from one place to another looking for what actually works.
- Know there must be an easier way.
- Just want to have a clear path to winning and profiting consistently in the markets.

# The Big Realization

- By just choosing to sell options, I put the odds in my favor at 67%.
- I learned I could increase those odds to over 90% through how I enter and manage trades including using my proprietary indicators and time-tested rules.
- I effectively could become the house selling to the “suckers” in the casino.
- And I could do it in less than 10-12 minutes a day!

# 2022 Other Takeaways

## Other Takeaways

- It is still better to play indexes vs. individual stock due to risk events, earnings, guidance, etc.
- Oil is an exception, and I will continue to sell positions on some individual companies.
- We are most likely in a recession and macro trends continue to slow. Housing is next to drop.
- Make sure you have an outlet!

## Best Advice For the Rest of 2022

# Revisiting 2022+ Predictions

## Predictions for 2022+

- There will be a real crash
  - It will be worse than 2008 or the reaction to the Pandemic
- We will most likely have a recession in 2022. A hangover from all the money printing.
- Commodities will continue to be in favor as haven assets (Gold, Silver, Oil, Rare Art, etc.)
- The dollar will start to gain because of tightening, and this will tamper down market growth.
- Rental real estate will be in high demand
- Over the next few years, you may get one of the greatest chances to build wealth in history...or since 2008 and the Pandemic
